

St Nicholas Parish Church, Lanark.

Working with Chemicals Procedure.

Responsibility to ensure compliance with this procedure are the Minister, employees, volunteers and anyone using the church or church hall.

Method:

- Only cleaning agents and chemicals for use in domestic premises should be used in church premises.
- Cleaning agents and chemicals should only be used by people wearing PPE (Personal Protective Equipment) as necessary, following the instruction on the label of the product, for the purpose it was designed.
- Cleaning agents and chemicals (except hand washing soap, dish washing liquid and work surface spray) must be secured in a locked cupboard when not in use and must not be left unattended when in use.
- Specific care must be taken when using cleaning agents and chemicals in the presence of children and other vulnerable people.
